Jean-Baptiste Say
(1767-1832)

Sounds like a plan.. so, we take their taxes, chose 5-10 random corporations.. and start producing a lot.. for example, cars and guns. Ok?

But we can't simply employ everyone with 10 corporations.. they will understand!

John Maynard Keynes
(1883–1946)

We can do startups.. We give them free money, they open a car shop.. More car shops - more cars. As simple as that. If anyone asks questions - specialization.

Highly specialised people don't see the big picture and don't ask questions. I'll send new orgstructures to my Knowledge Workers and NGOs..

Peter Drucker
(1909–2005)

I'll take care of
NGOs and the
rest.. Just give

for PR / GR
